

# Cookie Policy

Cookie Policy for the public site and client portal operated by Kevin Oudai.

v1

Effective 21 Mar 2026

## Overview

This Cookie Policy explains the limited cookie and session technologies used on the public site and client portal.

## What changed

- Initial published version confirming essential portal and session cookies only.

## Essential cookies only

The public site and client portal currently rely on essential technical cookies and session tools only. These are used for security, session handling, sign-in state, form handling, and basic site delivery.

## No advertising tracker by default

Kevin Oudai does not currently rely on advertising trackers, behavioural targeting tools, or non-essential analytics cookies as part of the default site setup. If that changes in the future, this Cookie Policy may be updated and the site experience may be adjusted to reflect the new cookie requirements.

## Browser controls

Most browsers allow cookies to be blocked or deleted through browser settings. Blocking essential cookies may affect the portal sign-in experience or prevent certain basic site functions from working correctly.
